

Heroes for Habitat

Build an insect hotel

- Bundle sticks and stems into small bunches with twine.
- Roll strips of cardboard into a pipe shape and bundle together.
- Pack your hotel frame with the bundled sticks and cardboard and fill gaps with banksia cones, bark, straw and other natural materials.
- Place in your garden just off the ground in a sheltered area.
- Watch for bees and other insects as they come and make a new home.

Plant a pollinator garden full of native flowers to feed your new insect friends!
